

MST BLOCKCHAIN BUILDATHON

Official Track Guide

About the MST Blockchain

The MST Blockchain challenges builders to create innovative, practical, and scalable products powered by MST Blockchain. Go beyond traditional DApps, basic wallet integrations, and projects that simply bolt blockchain on as a feature

Track Requirements - Mandatory

All five requirements below are mandatory for prize eligibility. Read them carefully before building.

1. MST Blockchain Usage

- Your project must use MST Blockchain as a meaningful, integral part of the product.
- A simple wallet connection or single isolated transaction is not sufficient.

2. MST Testnet Deployment

Every project must be deployed on MST Testnet before submission.

Your submission must include:

- MST Testnet contract address
- At least one verifiable MST Testnet transaction hash
- A working application or demo link (wherever applicable)

3. Public GitHub Repository

Every team must submit a public GitHub repository with the project's full source code, including:

Smart contracts + frontend / backend code

README with MST integration details, contract addresses, and setup instructions

4. BridgeKey Wallet Integration - Strongly Recommended

BridgeKey is the official non-custodial wallet for MST Blockchain.

Teams are strongly encouraged to integrate BridgeKey for wallet connection, network switching,

and smart contract signing in their DApps.

- **BridgeKey Website:** bridgekey.io
- **Chrome Extension:** chromewebstore.google.com/detail/bridgekey/bfjojdcfenehemjgilepdjomkpginlkg
- **Android App:** play.google.com/store/apps/details?id=com.bridgekey

5. Working Product + On-Chain Proof

A working deployed application is strongly preferred over mockups.

Projects that judges can interact with and test will have a significant advantage.

Your project must have at least one verifiable MST Testnet transaction demonstrating core functionality.

What Can You Build?

These are suggested directions, not restrictions. The category matters less than the problem, innovation, execution, and value you create by using MST Blockchain.

OUT-OF-THE-BOX BUILD IDEAS

Explore 12+ directions to spark your next big idea

These are inspiration ideas, not fixed problem statements. Combine ideas, change the use case, or build something completely new.

Newrro

IDEAS TODAY
REAL SOLUTIONS
TOMORROW

01 AI AGENTS & AUTONOMOUS ACTIONS

Give AI agents the ability to act, transact and create real value.

- AI agent that buys services
- Agent-to-agent commerce
- Autonomous procurement
- AI travel / booking agent
- Agent marketplace
- Subscription manager
- Agents negotiating prices

02 MACHINE-TO-MACHINE ECONOMY

Let real-world devices, robots and machines own wallets and transact.

- IoT device payments
- EV charging & mobility
- Smart parking
- Industrial automation
- Sensor data marketplace
- Machine maintenance
- Device-to-device settlement

03 PAY-PER-USE EVERYTHING

Create new models where people pay only for what they use.

- GPU 0.001 MSTC / sec
- Storage 0.001 MSTC / GB
- API 0.0001 MSTC / call
- Pay-per-minute Wi-Fi
- Pay-per-use GPU/compute
- Pay-per-API call
- Pay-per-km vehicle rental
- Pay-per-GB storage
- Pay-per-sensor reading
- Pay-per-minute AI

04 REAL-WORLD ASSETS & SUPPLY CHAIN

Bring physical products and assets on-chain.

- Product authenticity
- Supply chain tracking
- Asset tokenization
- Warranty automation
- Second-hand marketplace
- Agriculture traceability
- Manufacturing lifecycle
- Logistics & delivery proof

05 IDENTITY, TRUST & REPUTATION

Build verifiable identities and reputation for people, agents and machines.

- Proof of skill & experience
- Freelancer reputation
- Developer reputation
- Agent reputation
- Human vs AI identity
- Device identity
- On-chain credentials
- Event participation history

06 PROGRAMMABLE COMMERCE

New ways to buy, sell, negotiate and settle value.

- Escrow & conditional payments
- AI procurement for businesses
- Rent → Use → Return models
- Marketplace with on-chain rules
- Dynamic pricing models
- Group buying / bulk purchasing
- Creator & attention economy
- Revenue sharing systems

07 DECENTRALIZED INFRASTRUCTURE

Turn unused resources into opportunities.

- Compute / GPU sharing
- Decentralized storage
- Wi-Fi / internet sharing
- Solar energy sharing
- Edge device networks
- Data marketplace
- Map / location data
- Environment sensor networks

08 SMART CITIES & PUBLIC INFRASTRUCTURE

Build solutions for cities, communities and government use cases.

- Smart parking & tolls
- Public transport payments
- Waste management rewards
- Energy & water monitoring
- Citizen rewards & incentives
- Disaster relief infrastructure
- Public asset tracking
- Event management (e.g. Kumbh)

09 FINANCE, SAVINGS & INVESTMENTS

Reimagine how people save, invest and manage money.

- AI money manager
- Goal-based savings
- Automated recurring payments
- Cross-border remittances
- Micro-investments
- Social investing
- Prediction markets
- Risk-sharing & insurance

10 SOCIAL, CREATOR & COMMUNITY ECONOMY

New models for creators, communities and digital experiences.

- Creator tokens & fan ownership
- Pay for attention / engagement
- Community-owned platforms
- Token-gated events & content
- Learn-to-earn platforms
- Crowdfunding for ideas
- Creator subscription models
- Community governance (DAOs)

11 PHYSICAL ACTION → DIGITAL REWARD

Connect real-world behaviour with on-chain incentives.

- Recycling & waste collection
- Walking / fitness rewards
- Energy saving
- Water conservation
- Tree plantation
- Volunteer & social work
- Local business support
- Sustainable living incentives

12 SOMETHING COMPLETELY DIFFERENT

Unexpected ideas that can create the next big startup.

- Time as money (skill exchange)
- AI agent salary & budgeting
- Wallet for an object (car, home, chair)
- Decentralized rental economy
- Prediction markets for real-world events
- Digital legacy & memory layer
- AI + human collaboration tools
- Anything you think can be revolutionary

**DON'T JUST BUILD ANOTHER DAPP.
BUILD SOMETHING THAT CAN ACT, TRANSACT AND SCALE.**

Real Problems | Innovative Solutions | On-Chain Impact

**Suggested ideas across all track categories -
pick any, combine, or build something entirely new.**

MST Blockchain Developer Resources

Use the official MST tools and documentation to build quickly on MST Blockchain. Start with the Vibe Kit for rapid scaffolding, use the JS/TS SDK for contract interaction, and verify transactions on MSTScan.

Judging Criteria

What Wins at This Hackathon

Problem → Solution → Meaningful MST Usage → Working Product → Testnet Deployment → Scale

Strong ideas, meaningful blockchain integration, and solid execution is important.

Use of AI & Originality Policy

AI coding assistants, AI agents, MCP, Vibe Kit, SDKs, open-source libraries, and other developer tools are all permitted. Every team must fully understand the code they submit and be ready to explain their architecture, MST integration, and implementation decisions to judges.

⚠ Projects found to be substantially copied, plagiarised, or using fake / misleading deployment or transaction data may be disqualified from all prizes.

Prize Pool - MST Blockchain Buildathon

Don't just build on blockchain — build something that becomes better because of blockchain

BUILDATHON

BUILD | COLLABORATE | SOLVE | GET DISCOVERED

01 MST BLOCKCHAIN TRACK
5 AWARDS

RANK 1	₹20,000	+ \$MSTC
RANK 2	₹15,000	+ \$MSTC
RANK 3	₹10,000	+ \$MSTC
RANK 4	₹8,000	+ \$MSTC
RANK 5	₹7,000	+ \$MSTC

Build innovative projects on MST Blockchain ecosystem. Open to all ideas and use cases.

02 MST x ROBOTICS TRACK
3 AWARDS

RANK 1	₹10,000	+ \$MSTC
RANK 2	₹6,000	+ \$MSTC
RANK 3	₹4,000	+ \$MSTC

Projects must be deployed on MST Network and interact with the IoT devices provided.

Outstanding projects can also be considered for the main MST Blockchain track.

03 SPECIAL MENTION AWARDS
7 AWARDS

₹2,000 × 7 teams + \$MSTC

For unique ideas, innovation, social impact, design, technical creativity and more.

04 SOCIAL TRACK
10 AWARDS

₹1,000 × 10 teams + \$MSTC

Best Reels, Shorts & Videos on Instagram

Tag @newrro_tech and @mstblockchain

\$MSTC TOKEN REWARDS

A total of 50,000 \$MSTC tokens will be distributed among all winners and participants building valid projects.

INTERNSHIPS & INTERVIEWS

Top performers and promising builders will get internship opportunities and interview opportunities at MST Blockchain and Newrro.

MST BLOCKCHAIN ACADEMY ACCESS

Get access to exclusive academy courses to continue your learning journey in Blockchain, Web3, AI and more.

NETWORK WITH THE ECOSYSTEM

Interact with mentors, core teams, investors and the MST community to showcase your work and grow.

TOP 5 PROJECTS ENTER THE MST STARTUP BUILDER PROGRAM

WORTH \$150,000+ PROGRAM VALUE

- Marketing & Visibility
- Technical Support
- Mentorship & Guidance
- Ecosystem Connections

UP TO \$50,000 GRANT POOL OPPORTUNITY

For selected projects through the MST ecosystem.

Build something that solves a real problem, creates genuine value for users, and demonstrates why blockchain is essential to the product. We are looking for ideas that attract real users, create network effects, drive adoption, and scale into a real product beyond the hackathon.

Final Project Submission

All teams must complete the final submission form before the hackathon deadline. This is compulsory to be eligible for any MST Blockchain Track prize. Ensure all links are public and accessible to the judging team.

SUBMISSION FORM — COMPULSORY TO FILL BEFORE HACKATHON ENDS

<https://forms.gle/fkkVbfiwKmbL3BFp9>

GitHub Repository · Testnet Contract Address · Transaction Hash · Demo Link · Demo Video

Social Award – 10 TEAMS

The Social Award recognises the team that creates the most creative and engaging content while building their project on MST Blockchain. It is judged completely independently from the main technical awards.

Eligibility - Your video must:

- Be at least 30 seconds long
- Show your face or team members on camera
- Be publicly posted on Instagram
- Mention @mstblockchain and @newro_tech in the post or video
- Clearly show or mention you are building on MST Blockchain
- Be submitted through the final submission form before the deadline

Follow & Tag Us

Post your build journey, tag us, and mention @mstblockchain. Join the community and show the world what you are building.
